Invoice for	Payable to	Invoice #
Techcelx Private Limited	DIGIMOPLUS LLP	2021-001
GSTN: 09AAFCT8431J1ZY		
Sector 131	Project	
Noida, Uttar Pradesh 201304	Productivise	

Description	Qty	Unit price	Total price
iOS Tasks			
Fix support group empty issue	1	₹1,000.00	₹1,000.00
-> Update support group API with proxy API - 2 Hrs			
-> Show last call message on Support group list (Chat Room list) - 1.5 Hr	3.5	₹1,000.00	₹3,500.00
Fix issue to run sonar scanner	3	₹1,000.00	₹3,000.00
Provide KT of ProductoviseLite Chat feature to Apar	1	₹1,000.00	₹1,000.00
Meeting with Amit to discuss and configure to upload build on TestFlight through jenkins	1	₹1,000.00	₹1,000.00
Setup new target			
1. Create new target from productivise enterprise.			
2. Craete appld, certificate and provisioning profile.			
3. Configure new app icon and launch screen.			
4. Handle app with new schema and add condition to working with new app target (Currently we are using two app like Productivise and Productivise Lite)	8	₹1,000.00	₹8,000.00
5. Update firebase json file.			
6. Manage database layer			
7. Find and saperate app target if anything happened through bundle identifier.			
Signin / Signup flow using google to our plateform			
1. Integrate google signin SDK.			
2. Integrate SSO login API (To check existing user)			
3. Add signup API (To create new user in Successgurukul organization)			
4. Update login screen to show signup with google option.			
5. Create new signup screen (Or bot)	14	₹1,000.00	₹14,000.00
6. On each successful login , the learner's organisation needs to be checked. If the learner's org id matches the successgurukul Org id , only then the user will be allowed to enter the app. Otherwise a toast/alert to be shown stating something like "It seems you haven't signed up for Successgurukul , please sign up to continue".			

Integrate get subscriptions API			
1. Craete new DataBase table to save subscriptions	2	₹1,000.00	₹2,000.00
2. Call API to fetch all subscription and save it into database			
Setup microcontent to display only subscribed contents-			
1. Add API to fetch only subscribed microcontent. (If vinu will provide api as per our discussion then okay otherwise multiple api will be called to fetch all microcontent).	7	₹1,000.00	₹7,000.00
2. Only the Microcontent received in the Subscriptions API needs to be subscried for FCM/MQTT topics.			
3. Notification bell icon logic will be based on "get notifications by learner Id" (New API)			
		Subtotal	₹40,500.00
		IGST@18%	₹7,290.00
			₹47,790.00
